Performance meets sustainability

Performance meets sustainability.

A new chapter in professional cleaning.

Welcome to the Vileda Professional product catalogue. Full of first-class cleaning solutions that support sustainable values and are driven by innovation and responsibility. Vileda Professional products are crafted to perfection and many feature our "Love it Clean" logo, which symbolizes our commitment to sustainability for you, your customers and the planet. A clear goal drives us at Vileda Professional: To transform our customer-centric approach into cleaning solutions that give you a competitive edge and allow you to also make a commitment to sustainability.

Clean meets Green.

As a global leader in cleaning solutions, we firmly believe that every product we develop must contribute to a sustainable future. That is why we created a new series of products that save resources without reducing performance or durability – made of up to 100% recycled materials. Take advantage of and rely on best-in-class cleaning performance, bacteria/virus removal, intuitive handling and ergonomics and further grow your business by contributing to a healthier planet.

Since we love it clean, everywhere.

We use our "Love It Clean" label to highlight the most sustainable product choices. This label helps you recognize our goal to reduce waste and our commitment to increase recycling and safety, while delivering excellent product performance. In recent years we have steadily increased the use of recycled plastics in manufacturing, but we acknowledge our responsibility to continue to improve and take action where we can make a difference. That is why we have founded our internal and external sustainability initiative "Love It Clean".

Clear milestones mark our way to a sustainable future.

We are proud to announce that we are a signatory of the Ellen MacArthur Foundation's New Plastics Economy Global Commitment. As such, we are working to eliminate non-recyclable packaging and to achieve 100% recyclable, reusable, or compostable alternatives. Furthermore, we are continuously increasing the amount of recycled material in our solid plastic products themselves.

Customer comes first, and second, and third

Customer understanding is paramount: the better we understand your business, the better our products meet your complex needs. Your success is our success. That is why we have transformed our "Listen and Learn" approach to a customer-centric strategy. This customer focus is how we guarantee you get the best solutions and services to contribute to your competitive advantage. Be it in offices, hospitals, hotels or controlled environments, Vileda Professional stands ready as your partner.

Explore all our innovations and lead your business to sustainable success. Welcome to Vileda Professional!

Wiping

Which properties do you need? High absorbency for wet surfaces? Absolutely streak-free, lint-free cleaning for glossy surfaces? Removal of grease and stubborn fingerprints in a single wipe – without chemicals?

Which method suits your cleaning and hygiene tasks best? Bucket method? Spray-cleaning system or pre-preparation of cloths? Vileda Professional's comprehensive range includes cloths for every need and every system, from economical semi-disposables to advanced microfibres.

A wipe for every need Healthcare

Vileda Professional offers the highest grade of cleanliness and maximum contamination control for highly sensitive hygienic areas. From patient rooms, operating theatres and examination rooms in hospitals – Vileda Professional can provide you with what it takes to raise the overall hygiene levels and minimize infection rates significantly at the lowest possible total costs.

Key challenges / needs:

-  Hygienic cleaning for the benefit of patients, visitors and employees
-  Reliable, certified removal of microorganisms
-  Prevention of cross-contamination through pre-preparation method and/or single-use wipes
-  Homogeneous apply of disinfectant on a large surface
-  High resistance against daily washing
-  High stability against a wide range of disinfectants

A wipe for every need Which is yours?

	Good performance*	Better performance	Best performance

Scouring

Many scourers look alike on the outside, but if you choose one from Vileda Professional you will quickly notice the difference in terms of both quality and the end result. Poor quality scourers wear quickly once the top layer of abrasive fibres wears down, you are left with a scourer that demands more time and effort to get things clean. In a Vileda Professional scourer, every fibre is coated with grit and resin, his penetration of abrasive throughout the structure ensures superb cleaning action throughout the lifetime of the scourer. The strong resin-to-fibre bond ensures even wear of both fibres and abrasives, resulting in consistently excellent cleaning performance. Additionally Vileda Professional scourers are manufactured from nylon which does not rust, splinter, clog with debris and are easy to rinse clean.

Scourers

Vileda "Heavy Duty" (Black Abrasive)

- High performance, black abrasive scourer with easy grip foam backing
- Suitable for the heaviest duty applications
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application
101885	Vileda "Heavy Duty"	7 x 15	10	10	102565	

Vileda "Strong" (Green Abrasive)

- High performance, high quality abrasive scourer with easy grip foam backing
- Ideal for general washing-up and mark removal
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface

101404	Vileda "Strong"	7 x 15	10	10	101397	

Vileda Bathcleaner "Soft"

- Soft, blue structure, more effective at removing marks than white scourers, but still gentle to surfaces
- Ideal for use in sanitary applications
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface
- Available in two formats

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application

161371	Vileda Bathcleaner	13 x 16.5	1	44	535895	

Vileda "Non-Scratch"

- Open soft white scourer surface does not contain abrasive, making it suitable for non-scratch cleaning on all surfaces
- Ideal for use in bathrooms, kitchen, etc.
- Foam backing protects fingers
- Colour coded R/B/G/Y to help prevent cross contamination
- Universally applicable, also on chrome

100232	Abrasive Roll	600 x 14	1	6	100810	

PurActive

Effect of PurActive wave-shape

PurActives special coating easily lifts stubborn grime whilst being gentle on all hard surfaces. It cleans three times more effectively than traditional non-scratch scourers and is more gentle on surfaces than a traditional abrasive scourer.

Instead of scratching the dirt away like a traditional scourer, the special wave shaped surface structure lifts the dirt from the surface without scratching resulting in time savings through faster more powerful cleaning.

PurActive

- Easily lifts grease and grime
- Gentle on all hard surfaces
- Fits comfortably in your hand
- Colour coded to help prevent cross contamination

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application

Miraclean

Tired of pen-marked table tops, scuff-marked floors, limy washbasins, dirty white-boards, greasy sinks, finger printed walls, and ground-in dirt in general?

Miraclean is the solution to all these problem areas. With a minimum of effort and using only water it will instantly take away marks that used to be a problem. No need for aggressive chemicals, no need to struggle and sweat over annoying marks anymore, just dampen Miraclean in water and rub the mark away.

Miraclean (Stain Eraser)

- Strong cleaning performance with a minimum of effort
- Works with water only, no chemicals needed
- About 26 times more effective than other methods or products, saves time and money

Gloves

Chemical or mechanical hazards, heavy-duty cleaning, microbiological hazards, and foodstuff handling – the directives for Personal Protective Equipment (PPE) are clear: employees have to provide their staff with appropriate protection against hazards.

Vileda Professional gloves are the answer to the various needs to meet the different professional cleaning needs as well as the legal requirements. Vileda Professional offers a complete range of protective and comfortable gloves, each suitable for its respective professional task.

To optimize glove economy – as a part of your total cleaning costs – be sure to select the right glove for the job. As each glove has its top protection focus it's easy to select the most suitable one, and thereby investing in exactly the right performance you expect from the glove.

How to use gloves

1. Before putting on gloves

Clean and dry your hands thoroughly before putting on gloves.

2. Do not reuse damaged gloves

Please use only gloves which do not have any damages like holes or tears.

3. How to put on gloves

Please turn the cuffs in order to prevent liquids to flow into the glove.

4. Usage duration

Do not use one pair of gloves for too long: please check the chemical recommendation, alternate between 2-3 pairs if long time use is required.

5. Clean gloves after usage

Please clean the gloves before taking them off: after contact with acid or alkaline chemicals please wash off with water and dry afterwards.

6. How to take off gloves

Please do not touch the outer side of the gloves while taking them off: avoid contact to chemicals / bacteria.

7. How to store used gloves

Take care that the used gloves dry properly until next use by e.g.: putting the gloves on a gloves rack, hanging the gloves on a (clothes) line.

8. Hand care after usage

After taking off the gloves, please wash your hands and use a suitable hand cream.

Floor Cleaning

As all sites differ in terms of size, floor coverings, traffic volume, hygiene and health and safety requirements, a single floor cleaning system is not enough to fulfil all requirements. That's why Vileda Professional offers a comprehensive range of sustainable and durable single-use solutions that are customised to your exact requirements. From the 1-step pre-cleaned Swep system and the 2-step Twixterclass cleaning system to the UltraSpeed Pro, UltraSpeed Mini or UltraSpin Mini bucket and pressure systems and SuperMop. By choosing the right system for your needs, you can achieve better performance and ergonomics, reduce your total cost of ownership and improve your sustainability goals.

Swep Pre-Prepared Flat Mop System

The original Swep pre-prepared system was launched over 40 years ago. During this period the system has continually developed to stay ahead of the changing trends and demands from the marketplace. The new Swep class is the latest upgrade focusing on sustainability, ergonomics and cleaning performance. A new range of handles, frames and mops made from recycled materials, backed up by external ergonomics certificates and with proven bacteria and virus removal.

Twixter / Twix

Twixter – the innovative solution for hands-free, hygienic cleaning. The Twixter's unique double mop design allows for both wet and dry mopping with a single mop, offering versatility and efficiency. Available in various mop qualities to suit every cleaning need, the 40 cm wide Twixter is perfect for tackling large surface areas. Its ergonomic design enables all cleaning tasks to be performed in an upright position, ensuring maximum comfort and ease of use. The Twixter sets a new standard in efficient and hygienic floor cleaning.

The Twix system makes light work of busy spaces by getting into every nook and cranny. Just 30 cm wide, Twix can clean in tight spaces and corners, navigating furniture and other objects with ease.

UltraSpeed Pro Flat Mop System

UltraSpeed Pro is the most up to date, best performing flat Mop Bucket and press system on the market. It is so easy to use, needs no training and is adaptable to suit all sites. Start with the single Bucketsystem for general floor cleaning or add a second Bucket onto the chassis and you have a double Bucketsystem for mopping larger areas. If you want to fulfil more cleaning tasks, you can use the second Bucket to carry chemicals, cloths, paper etc. Whatever the cleaning requirements, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

CombiSpeed Pro System

The CombiSpeed Pro system includes a wide assortment of pocket and strip Mops for use in a variety of applications. From the high performance of Trio and MicroSpeed Plus to the economy of Contract and MicroLite we have a Mop that meets your requirements in terms of application, performance or budgets. Each Mop type is available in 40 cm and 50 cm sizes in both pocket and pocket/strip attachments and fit all commercially frames. Additional features also include barcode labels and colour coding tags as standard.

Vertical mopping systems

A traditional system in the wet mopping is still the vertical Mop assortment. Vileda Professional offers a range which fits all needs, from the innovative UltraSpin Mini to a small and flexible system with several Mop materials in the SuperMop range to a traditional Kentucky Mop system up to a Twist Mop which could be used without any press.

SprayPro Inox Spray Mopping System

SprayPro Inox is the professional, ready-to-use floor cleaning system containing all you need for Bucketfree mopping. Just fill the handle with water and you have everything you need to clean hard flooring and staircases in one easy-to-use unit. Designed to work with all Vileda Professional mopping systems it easily adapts to your needs, whatever the cleaning task or on-site conditions.

ClickSpeed Pre-Prepared System

ClickSpeed is a cost effective pre-prepared damp flat mopping system featuring a unique, patented mop frame that is very easy to handle and use. Simply drop the mop on the floor, slide in the frame and then click-close the magnetic mop holder. ClickSpeed can be used with either microfiber durable mops or with microfiber based single use mops.

Express (Hook and Loop) Flat Mops

Comprehensive range of hook and loop Mops for use with a variety of systems and methods including pre-prepared, spray and dust control.

Floor Cloths

High performance durable and single use floor cloths featuring the quality and performance you expect from Vileda Professional. For use with your choice of squeegees or scrubbers on all hard floors.

Dustmopping

The disposable dustmop range comprises a range of viscose and polypropylene non-woven Mops that contain a special permanent oil impregnation treatment that retains its effectiveness even after storing for long periods. The durable dustMops are designed for fast removal of loose dust and dirt as part of daily maintenance or preliminary cleaning. When used as part of a maintenance system dustmopping acts as an intermediate cleaning step to reduce the frequency of wet or damp mopping.

Floorpads

Superpads are designed to last longer, do the job faster, prolong the life of floor coatings and protect your investment in floorcare machinery. Available in a range of grades and sizes for all motor speeds. Edging Tools & Pads are designed to simplify cleaning, maintenance, restoring and manual spot-cleaning processes. For use in areas inaccessible to machines including corners, walls, floor edges and staircases.

The New Sweep Class

Synchronized cleaning, ultimate success.
For offices, public buildings and healthcare facilities.

Meet the most efficient, high-performing floor cleaning system to date from Vileda Professional.
Highest efficiency synchronized with superior cleaning results at a minimized impact on the environment.
For ultimate success.

Sweep to ultimate hygiene.

Clean deeper. With better results.

Up to 99.9% of virus and bacteria removal –
synchronized with a decreased use of water and chemicals.

Sweep to superior ergonomics.

Clean faster. With better ergonomics.

Versatility in size and use, symmetrical frame and mop design –
synchronized as a certified ergonomic system.

Sweep to sustainability.

Clean easier. With a greener impact.

Recycled materials in high-performance mops –
synchronized with second life plastic in handles and frames.

Sweep to a lower cost-in-use.

Clean smarter. With lower overall costs.

Durable, pre-prepared, double-sided mops designed with high-tech
fibres to clean more square meters with fewer mops.

Swep System

The original Swep pre-prepared system was launched over 40 years ago. During this period the system has continually developed to stay ahead of the changing trends and demands from the marketplace. The new Swep class is the latest upgrade focusing on sustainability, ergonomics and cleaning performance. A new range of handles, frames and mops made from recycled materials, backed up by external ergonomics certificates and with proven bacteria and virus removal.

The Core Range – Swep Duo

By being double sided Swep Duo Mops let you clean twice the area by just flipping the frame and keep mopping. Plus you only need to purchase and to launder half the number of Mops – meaning lower investments and lower usage of water, chemicals and electricity.

Swep r-Frame

Symmetrical, Ergonomic Design.

- ✓ Two frame sizes for floors, walls, open areas and all surface types
- ✓ Symmetrical, hygienic design with hand grips and peelers for easy mop on / off
- ✓ Flat construction for even, consistent contact with cleaning surface
- ✓ Compatible with all Swep mops
- ✓ Plastica Seconda Vita Certified due to recycled plastic construction
- ✓ ErgoCert certified for superior ergonomics when used with Swep Pro mops and with the Ergonomic or Telescopic Handle

Swept Single System

Areas with less than 20 m². Duo Mops offer the best cost in use through laundry, dosing and preparation time. But there are some areas that are too small to benefit from the second side. E.g. patient rooms often measure around 20 m². To fulfil these requirements the Mops in the core range are available as 50 cm Single sided Mops.

WET DRY

WetDryCleaning

All in one twist with Twixter! The leading floor cleaning system for 2-step cleaning, invented to clean all floors wet and dry in one operation. Based on its double-sided mops it works up to 30% faster, compared to a single sided mop.

40m²

Double the floor coverage

Cover up to 40m² per mop before changing in 1-step cleaning mode. Double the distance of single sided systems.

Highest Hygiene

Never touch a used mop. Release the mop safely and hygienically at the push of a button.

Faster Cleaning

Double sided mopping means more time cleaning and less time changing mops or wringing.

All areas and methods

Use with Des Tub for 2-step cleaning, or with a press in large areas respective pre-prepared in hygiene sensitive areas.

One Twixter – Different Methods

Whatever your method of choice do it with Twixter

DES TUB SYSTEM

2-Step Wet & Dry Cleaning

- **Easy to train**
Simple, intuitive and fast handling
- **Perfectly soaked**
Mop moistening of one or both mop sides
- **Hygienic**
No contamination of cleaning solution and spreading of germs

BUCKET & PRESS / PRE-PREPARED SYSTEM

1-Step Wet Cleaning

- **Double the floor coverage**
Cover up to 40 m² per mop before changing in 1-step cleaning method. Double the distance of single sided systems.
- **Faster Cleaning**
Double sided mopping means more time cleaning and less time changing mops or wringing.

Twixter

Two steps feel like one!

With Twixter! The leading floor cleaning system for 2-step cleaning, invented to clean all floors wet and dry in one operation. Based on its double-sided mops it works up to 30% faster, compared to a single sided mop. Use with Des Tub for 2-step cleaning, or 1-step cleaning with a press in large areas respective pre-prepared in hygiene sensitive areas.

Twixter Frame

- ✓ Designed for two-sided mopping, frame can be flipped to the other side
- ✓ 2-step approach with the DesTub 35 l: Efficient wet and dry cleaning in one operation
- ✓ For pre-prepared cleaning in hygiene sensitive areas (e.g. patient rooms) for reduced chemical and water consumption
- ✓ Use with the Twixter Flat press in high traffic areas (e.g. canteens) for heavy dirt removal
- ✓ Ergonomic working without bending down and push button for hands free mop release
- ✓ For floor and side wall cleaning

Twix

The Twix system makes light work of busy spaces by getting into every nook and cranny. Just 30 cm wide, Twix can clean in tight spaces and corners, navigating furniture and other objects with ease.

Twix pairs perfectly with the Shopster trolley.
More details on page 91.

Twix Mop Frame

- Designed for two-sided mopping, frame can be flipped to the other side
- Compatible with all 30 cm Twix mops
- Push button for hands free mop release
- For floor and side wall cleaning
- Resists most common disinfectants and detergents
- 2-step approach with the DesTub 20 l: Efficient wet and dry cleaning in one operation
- For pre-prepared cleaning in hygiene sensitive areas (e.g. patient rooms) for reduced chemical and water consumption
- Use with the Twix Flat press in high traffic areas (e.g. canteens) for heavy dirt removal

Twix Flat Press

- ✓ Allows the mop to be easily pressed out at the frame, thanks to its press lever
- ✓ Due to its narrow width of 30 cm, it is ideal for cleaning floors in small and oversized areas
- ✓ Twix press for effortless squeezing of the Twix mop without hand contact
- ✓ At the maximum pressure point (soft point), the mop on the frame is automatically pressed out by the press without exerting pressure on the press lever
- ✓ This press is hooked into the 20 l box and fastened on both sides with clamping bolts

UltraSpeed Pro

UltraSpeed Pro is the most up to date, best performing flat mop bucket and press system on the market. It is so easy to use it needs no training and is adaptable to suit all sites. Start with the single bucket system for general floor cleaning or add a second bucket onto the chassis and you have a double bucket system for mopping larger areas. If you want to fulfil more cleaning tasks you can use the second bucket to carry chemicals, cloths, paper etc. Whatever the cleaning requirements, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

UltraSpeed Pro Bucket System

CombiSpeed Pro System

The CombiSpeed Pro system includes a wide assortment of pocket and strip Mops for use in a variety of applications. From the high performance of Trio and MicroSpeed Plus to the economy of Contract and MicroLite we have a Mop that meets your requirements in terms of application, performance or budgets. Each Mop type is available in 40 cm and 50 cm sizes in both pocket and pocket/strip attachments and fit all commercially frames. Additional features also include barcode labels and colour coding tags as standard. With the CombiSpeed Pro cleaning system you choose the Mop that suits your requirements, not the Mop that suits your system.

CombiSpeed Bucket System

- Compact single and double bucket vertical press solution
- Small footprint allows easy storage in the smallest of cleaning cupboards
- No water drips between buckets
- Covers all double bucket cleaning styles

134998	Biodegradable dustmop	60 x 20	1	200	135338	

Durable Dustmopping

Durable dustmop for fast removal of loose dust and dirt as part of daily maintenance or preliminary cleaning.

When used as part of a maintenance system dustmopping acts as an intermediate cleaning step to reduce the frequency of wet or damp mopping.

Dustmopping can also be used as the preliminary cleaning step of a two step floor cleaning process to remove fine dust particles and solid elements before damp or wet mopping.

Dustmop Frame Metal

- Break frame for use with Vileda durable dustmops (with pockets)
- Universal connector with Euro-clip

Brushware

Constructed from easy-to-clean high grade plastic and synthetic filaments, Vileda's hygienic brooms are designed to outlast and outperform ordinary brooms. The Superior brushware range offers best in class hygiene in use. The abrasion resistant bristles consist of Polyester PBT-filaments with excellent bend recovery and sweeping performance as well as a high resistance to a wide range of chemicals, oils, organic solvents and detergents. The strong Polypropylene plastic material withstands heavy use. Its smooth finish helps to prevent soil clinging to the surface. Stainless-steel staples fix the tufts and ensure longlasting rust-free hygiene. The Superior broom- and brushware range is heat resistant and can be autoclaved up to 134 °C for optimal hygiene.

Trolley Equipe Hotel

The Trolley for Experienced Hoteliers

Equipe combines an exclusive look and feel with ease of handling thanks to robust materials and a smart design. Equipe Hotel cleaning trolleys are ideal for cleaning hotel rooms, lobbies and conference rooms.

- High Volume:** Thanks to its shelves and height advantage, this cleaning trolley takes loading capacity to the max.
- Designed for Clarity:** The clear layout of storage space plus panelling around the outside creates a neat and tidy impression.
- Perfect Ergonomics:** The height of the push-bar can be adjusted to your comfort level while the smooth-running wheels guarantee easy manoeuvring.
- Individual Branding:** All panelling can be customised to fit in with your corporate design.
- Maximum Modularity:** The modular design concept means you can combine shelves, boxes (5, 15 and 35 litres) and buckets (6 and 8 litres) to suit your individual needs.

OriGO FLEXIBLE

AX

Our most compact trolley, designed for sites with limited storage after use.

- ✓ Foldable waste section
- ✓ Multi-height push bar
- ✓ Vertical mop Frame holder (fits up to 5 tools/frames)
- ✓ One multi-height inner rail storage section for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for all pre-prepared cleaning systems

C

Compact and agile, but with room to store all daily cleaning elements.

- ✓ Two multi-height internal rail sections for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Multi-height push bar
- ✓ Vertical mop Frame holder (fits up to 5 tools/frames)
- ✓ Up to 6 buckets fit on top section
- ✓ Designed for pre-prepared cleaning systems

CX and CXL

The versatile solution, combining generous storage plus fold-down waste.

- ✓ All the benefits of a C but with additional fold down waste section
- ✓ Three separate compartments (e. g. clean, waste and used products)
- ✓ Designed for pre-prepared cleaning systems
- ✓ Can be fully enclosed, with lockable doors and push-button top lids

Waste Management

C-A

Featuring a handy satellite for transporting products to and from laundry.

- ✓ Three separate compartments (e. g. clean, waste and used products)
- ✓ Foot pedal release on A satellite
- ✓ Three multi-height internal rail sections for boxes, trays and surrounds
- ✓ Vertical mop Frame holders on both sections (fit up to 10 tools/frames)
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for pre-prepared cleaning systems

C-C

Featuring a bigger satellite for large sites or high volumes of waste.

- ✓ Clear split of functionality (one C for cleaning, one C for used products or waste)
- ✓ Four multi-height internal rail sections for boxes, trays and surrounds
- ✓ Vertical mop Frame holders on both sections (fit up to 10 tools/frames)
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for all pre-prepared cleaning systems or waste removal

C-B

Storage, waste plus a Bucket & Press satellite for faster mopping results.

- ✓ Two multi-height internal rail sections for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Satellite B section works with all single and double Bucket flat and vertical mops
- ✓ Multi-height push bar on C section and compact push bar on satellite
- ✓ Vertical mop Frame holder (fits up to 5 tools/frames)
- ✓ Can also be used for pre-prepared mop box transportation

A-B

Compact and versatile Bucket & press satellite for sites with limited storage.

- ✓ All the benefits of the C-B but, with only one multi-height internal rail section
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Satellite B section works with all single and double Bucket flat and vertical mops

VoleoPro configuration examples

Shopster

The professional cleaning trolley that combines all the functions of a conventional trolley in the footprint of a double bucket system. No compromise cleaning in a small space.

Shopster Basic Trolley

Fully a trolley. Half the size.

- ✓ Compact 70 cm x 40 cm footprint for space-efficient design
- ✓ Enhanced efficiency with improved maneuverability and convenient access to all essential tools and items
- ✓ Ideal for cleaning small areas (up to 1,000 sqm), narrow corridors, areas such as small offices, gastronomy, retail stores, small branches (e.g. bank, post offices), sanitary facilities or in the conventional cleaning of smaller premises

Geo Metallic – waste separation and recycling

reddot design award
winner 2012

The innovative and durable Geo bin range is the centre of your waste collection and recycling separation system.

- ✓ Durable plastic construction with metallic finish
- ✓ Compact slim line design – fits into the tightest spaces
- ✓ Rust, dent and fingerprint proof
- ✓ Easy to clean and washable
- ✓ Integrated handle – for easy carrying and lifting
- ✓ Integrated bag holder – ensures the correct fit of your waste bag
- ✓ Anti-slip rubber feet – avoids movement in use and protects flooring
- ✓ 2 sizes – 55 l and 70 l
- ✓ 3 lid options – handle, paper, cans with colour coding or open lid with wall mounting tool
- ✓ Corresponds to combustion class K1 or F1. Tested according to DIN 53438-1:1984-06

Optional wall mounting kit:

- ✓ Ideal for use in washrooms and areas where cleaning under the bin is required
- ✓ Secure, snug fit against walls
- ✓ Bin can be removed for cleaning and emptying if required
